Introduction

Odyssey represents a dynamic community of ambitious, tech-savvy individuals united by a profound passion for harnessing the latest advancements in information technology to effect positive change in the world. Comprised predominantly of young visionaries, our team is dedicated to bridging the gap between cutting-edge innovation and real-world application. We are driven by a collective mission to infuse everyday life with the transformative power of technology, ultimately contributing to a brighter, more interconnected global society.

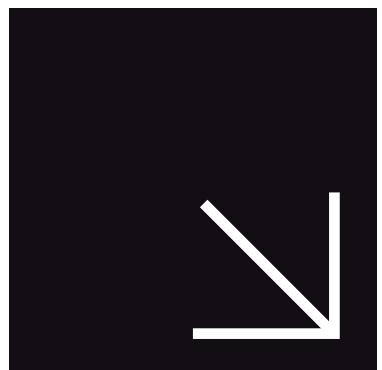

At the heart of Odyssey's ethos lies a deep-seated commitment to innovation and societal betterment. We believe in the potential of technology to not only revolutionize industries but also to address pressing societal challenges, from environmental sustainability to healthcare accessibility. By embracing innovation and pushing the boundaries of what's possible, we strive to empower individuals and organizations to unlock new opportunities and realize their full potential.

Our overarching goal is to deliver software solutions that are not only innovative but also highly effective and efficient. We understand that technology alone is not enough; it must be harnessed strategically to drive meaningful outcomes. As such, our team works tirelessly to develop cutting-edge software solutions that address the evolving needs and complexities of the modern world.

Through a combination of creativity, technical expertise, and a deep understanding of user needs, we craft solutions that empower our clients to turn their dreams into reality. Whether it's developing intuitive mobile applications, implementing robust enterprise systems, or pioneering groundbreaking AI solutions, we are committed to delivering excellence in every project we undertake.

One of our core principles is to foster collaboration and partnership, both within our team and with our clients. We believe that the most impactful solutions emerge from diverse perspectives and collective intelligence. By working closely with our clients, we gain invaluable insights into their unique challenges and goals, allowing us to tailor our solutions to their specific needs and preferences.

At Odyssey, we are more than just a software development company; we are agents of change, dedicated to driving progress and making a meaningful impact in the world. Through our innovative software solutions, we strive to create a future that is not only technologically advanced but also more inclusive, sustainable, and equitable for all. Together, we can turn visions into realities and shape a better tomorrow for generations to come.

Mission

Innovative solutions for modern businesses.

Our company specializes in offering unparalleled digital transformation services, renowned for reliability and precision. From cloud-based analytics to bespoke software applications, we possess the expertise and resources to meet diverse needs. Our innovative solutions are meticulously crafted to outpace competitors and ensure the attainment of strategic objectives.

Recognizing the pivotal role of digital transformation, our services are tailored to empower organizations to thrive in the digital age. With a dedicated team committed to excellence, we prioritize client satisfaction and strive to exceed expectations. Through close collaboration and transparent communication, we ensure that our solutions perfectly align with clients' unique requirements and goals.

Partnering with us grants access to cutting-edge technologies and industry best practices, enabling confident navigation of digital transformation.

Our unwavering dedication to innovation and client success positions us to transform businesses into beacons of digital excellence.

With our comprehensive suite of services and commitment to excellence, we stand ready to drive sustainable growth and success for your organization.

About Us

Odyssey is a dynamic assembly of driven young individuals deeply immersed in the realm of software development. Our collective ambition is to seamlessly integrate the latest technological advancements into everyday life, with a profound aim of enriching the global landscape. At the core of our ethos lies an unwavering commitment to innovation, propelling us to catalyze positive change and revolutionize the societal impact of technology. Our primary mission is to furnish software solutions that are not only innovative but also highly effective, empowering our clients to translate their aspirations into tangible outcomes that drive progress and prosperity.

We recognize the transformative potential inherent in technology and are fueled by an insatiable passion to unlock its boundless capabilities. Through collaborative ideation and meticulous execution, we custom-tailor our solutions to address the unique challenges and objectives of each client we serve. From

the conceptualization phase to deployment and beyond, our dedicated team remains fully engaged, providing steadfast support and expertise every step of the way. By harnessing cutting-edge tools and methodologies, we equip our clients with the means to anticipate and adapt to emerging trends, ensuring sustained success in an ever-evolving digital landscape.

At Odyssey, we embrace challenges as catalysts for growth and innovation. Our dynamic team amalgamates technical prowess with creative ingenuity to engineer solutions that not only meet but exceed expectations. By fostering a culture of collaboration, continuous learning, and agility, we remain at the forefront of technological advancements, delivering solutions that are not just relevant but also impactful. Join us on our odyssey as we redefine the boundaries of what's achievable with technology and strive to create a brighter, more interconnected future for all.

Board Of Director

Khanh Nguyen

CEO & Founder

Mr. Nguyen Quoc Khanh was trained at leading universities in Vietnam and Europe. He earned a master's degree in software engineering from University of Bordeaux in France and a master's degree in economics from Erasmus University Rotterdam in the Netherlands. He is a professor at University of Greenwich in England.

He has many years of experience in the software industry, at many famous companies in Vietnam and the world such as AEON, FPT, Capgemini in many different positions from software development to management. He has participated in many different software projects for many different fields from e-commerce, finance, education, human resource management, health care to transportation. He has always proven his abilities in every position he has held.

As president and director of the company, Mr. Nguyen Quoc Khanh hopes to make Odyssey software company become the leading technology company in Vietnam and Asia to bring the best software development services to customers around the world.

Solutions

I WEB AND MOBILE APPLICATION

At Odyssey we specialize in crafting exceptional web and mobile applications tailored to enhance the experience of your customers, thereby boosting the visibility and success of your products across various devices and platforms. Our dedicated team is committed to delivering excellence in every project we undertake. Through cutting-edge technologies and industry best practices, we design and develop stunning websites and mobile apps that not only meet but exceed your business objectives. Our passion lies in creating intuitive and visually captivating interfaces that captivate users and drive engagement. Leveraging our expertise in both web and mobile application development, we empower your brand to thrive in the digital landscape. Partner with us to unlock the full potential of your business and leave a lasting impression on your target audience.

I DATA ANALYSIS

We specialize in offering comprehensive data and analytics services tailored to assist clients in expanding their business operations effectively. Utilizing cutting-edge technologies and methodologies, we meticulously analyze your data to unearth valuable insights and growth opportunities. Our dedicated team of data scientists is committed to delivering in-depth understanding of the underlying issues, empowering you to make informed and strategic decisions confidently. Through our services, we aim to optimize your business processes and drive sustainable growth. Partner with us to harness the power of data-driven insights and propel your business forward with confidence.

I CLOUD COMPUTING

At our company, we specialize in tailored cloud computing solutions for businesses. Led by experts, we prioritize agility and scalability for seamless adaptation to evolving needs. From deployment to management, we ensure speed, transparency, and robust security. Our solutions optimize resource utilization, reducing hardware costs significantly. We facilitate remote access, promoting mobility and seamless collaboration. Partnering with us unlocks the full potential of cloud technology for innovation and cost-effectiveness. Businesses can streamline operations and achieve significant cost savings with our expertise. Experience the transformative power of cloud computing with our tailored solutions.

I BIG DATA

We specialize in providing comprehensive big data solutions tailored to meet your business needs effectively. Our range of services includes crafting strategic approaches to big data utilization, real-time data processing, advanced machine learning algorithms, robust data platform management, and sophisticated data analytics solutions. By addressing the complexities of big data challenges, we empower our clients to transition into fully-fledged digital enterprises. Partner with us to harness the transformative power of big data and propel your business to new heights of success.

I INTERNET OF THINGS

As a leading provider of comprehensive Internet of Things (IoT) solutions, our primary focus lies in enabling remote access and control for all devices. We offer extensive support for electronic component design and development, leveraging our expertise in embedded software development. Additionally, we deliver a highly scalable integrated platform, ensuring seamless expansion and adaptability to evolving needs. Our solutions empower businesses to harness the full potential of IoT technology, facilitating enhanced connectivity and efficiency. By leveraging our services, clients can unlock new opportunities for innovation and growth, while streamlining operations and enhancing customer experiences. Partner with us to embark on a transformative journey towards a connected future.

I BUSINESS INTELLIGENT

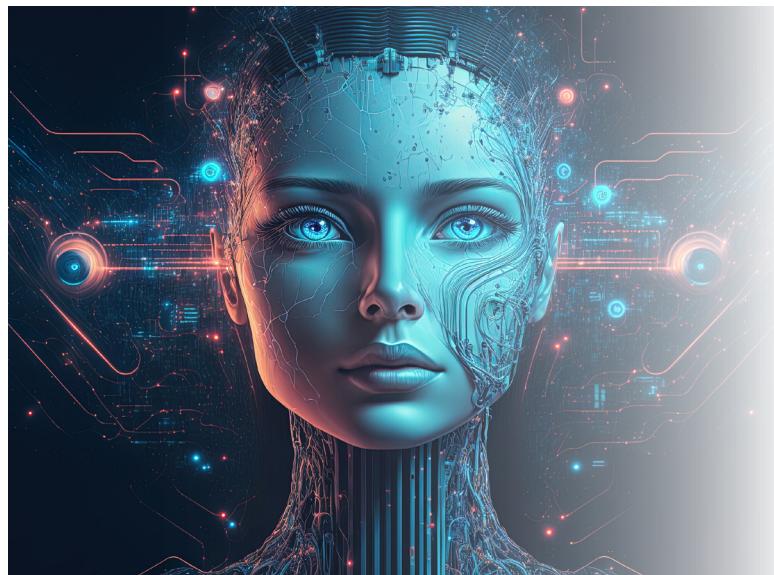

We excel in transforming raw data into valuable insights, facilitating informed decision-making through reliable enterprise intelligence solutions. By automating manual paperwork tasks, we accelerate the process of making swift and intelligent business decisions. Leveraging our cutting-edge tools and comprehensive support, you gain a competitive edge in the market. With access to accurate and up-to-date information, you're empowered to stay ahead of the curve and drive strategic initiatives effectively. Our commitment to delivering precise and actionable insights ensures that your decisions are well-informed and aligned with your business goals.

I ARTIFICIAL INTELLIGENCE

With deep expertise in artificial intelligence (AI), machine learning (ML), and generative AI solutions, we're dedicated to facilitating your business's digital transformation. Our solutions transcend specific technologies and are tailored to meet your unique business goals. Whether it's optimizing operations, enhancing customer experiences, or driving innovation, we deliver AI solutions that align with your strategic objectives. By leveraging our expertise, you can implement AI initiatives tailored to your business needs, unlocking opportunities for growth and efficiency. Let us guide you in harnessing the power of AI to drive tangible results and stay ahead in today's competitive landscape.

I BLOCKCHAIN

We leverage cutting-edge blockchain technology to revolutionize company operations, freeing you to focus on core business objectives. Our team handles the intricate details of implementing your blockchain projects swiftly and securely, ensuring seamless integration. By harnessing our blockchain solutions, you not only enhance revenue streams but also fortify your business for the digital economy of tomorrow. With our expertise, you can navigate the complexities of blockchain with confidence, staying ahead of the curve in an ever-evolving landscape. Let us propel your business into the future with innovative blockchain solutions tailored to your needs.

Our Clients

Some Of Our Clients

Our portfolio boasts a diverse array of clients spanning numerous sectors within Vietnam's dynamic economic landscape. From burgeoning startups to established enterprises, we cater to organizations of all sizes, each with unique aspirations and challenges. Our commitment to excellence remains unwavering, ensuring that every client receives personalized attention and tailored solutions that align with their specific needs and objectives. With a focus on scalability, we empower clients to navigate growth opportunities confidently, regardless of their current size or stage of development. Our dedication to fostering long-term partnerships underscores our belief in mutual success and sustainable growth.

Deeply entrenched in Vietnam's business ecosystem, we possess a nuanced understanding of its market dynamics, enabling us to craft bespoke solutions that resonate with local nuances while adhering to global standards. Through strategic collaboration and meticulous analysis, we develop comprehensive strategies that drive sustainable growth and competitive advantage for our clients. Leveraging state-of-the-art technologies and industry insights, we navigate the intricacies of Vietnam's business landscape with finesse, delivering innovative solutions that yield tangible results. Whether it's optimizing operations, expanding market reach, or fostering innovation, our unwavering commitment to excellence ensures our clients' success in Vietnam's rapidly evolving economy.

Our Management

We employ a range of cutting-edge software development methodologies, including Waterfall, Agile, Scrum, Kanban, XP, and more. These methodologies are carefully selected and tailored to suit the specific needs and preferences of our clients. By leveraging these modern approaches, we ensure that our software development processes are efficient, flexible, and responsive to change. Our team is well-versed in adapting these methodologies to various project requirements, ensuring that we deliver high-quality software solutions that meet and exceed customer expectations. Whether it's the structured approach of Waterfall or the iterative nature of Agile, we have the expertise to deliver outstanding results. Our commitment to quality and customer satisfaction remains unwavering throughout the development lifecycle, resulting in software solutions that are robust, reliable, and user-friendly.

01.

Requirement

Define project scope, gather requirements, and establish goals and timelines

02.

Analysis

This stage involves reviewing requirements, designing a solution, and specifying delivery approaches and relevant details.

03.

Design

The design phase includes logical brainstorming of solutions and physical transformation of ideas into concrete plans and specifications.

04.

Implementation

During this phase, code is written based on specifications and requirements outlined previously.

05.

Testing

During the verification phase, testers systematically explore the application for issues.

06.

Maintenance

Upon completion of testing, the application is released, followed by ongoing support for maintenance and bug fixes.

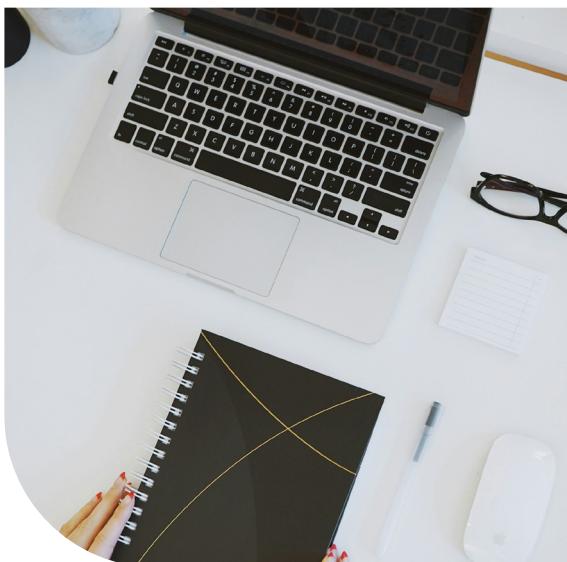

Our Commitment

We are dedicated to delivering optimal advantages to your organization or company while maintaining cost-effectiveness. Our commitment lies in empowering your company to operate with heightened efficiency, ensuring a seamless and enhanced customer experience. We prioritize the alignment of our services with your objectives, tailoring solutions that not only optimize operations but also elevate customer satisfaction.

We understand what you need

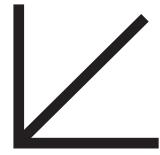

We understand that every business is unique. That's why we offer customized software applications tailored to your specific needs. Whether you're looking to streamline your operations or improve customer engagement, we've got you covered. We commit to provide exceptional customer service from start to finish. Our team of experts is available to answer your questions and provide support whenever you need it.

We are ready to help you

At Odyssey, we are proud to have an experienced leadership team that brings a wealth of knowledge and expertise to our company. Our leaders have a proven track record of success in the technology industry and are dedicated to driving our company forward. We believe that our people are our greatest asset, and we are committed to creating a supportive and inclusive work environment that fosters creativity and innovation. Our team is made up of talented developers, designers, and project managers who work together to deliver exceptional results.

Our Partner

Our partners stand as the cornerstone of our collaborations, comprising some of the most distinguished names in the global technology sphere and prestigious universities known for their academic excellence. Through these invaluable alliances, we foster innovative synergies, drawing from the expertise of top-tier technological enterprises and the intellectual prowess of esteemed academic institutions.

01.

Microsoft

We are proud to announce that Microsoft is one of our key partners. With this close partnership, we have collaborated with Microsoft to deliver breakthrough and effective technology solutions to our clients worldwide.

02.

Google

With the support and commitment from Google, we pledge to continue delivering the most innovative and reliable solutions to our customers, helping them achieve success and sustainable growth in today's business environment.

03.

University of Greenwich

Our partnership with the University of Greenwich provides us with the opportunity to access talent and knowledge from the diverse academic community of the university. This helps us develop and deploy the most suitable technology solutions and services for our customers.
